PROFESSIONAL SUMMARY

Data Analytics undergraduate at IIIT Nagpur with hands-on experience in Python, SQL, Power BI, Tableau, Streamlit, and Machine Learning. Proven ability to process 50,000+ record datasets, build predictive models with 84%+ accuracy, and deliver actionable insights through data visualization. Seeking a Data Analyst or Data Science role to drive data-driven decision making.

EDUCATION

Indian Institute of Information Technology, Nagpur

Bachelor of Technology in Electronics and Communication Engineering

Nagpur, Maharashtra

August 2023 – Present

TECHNICAL SKILLS

Programming Languages: Python, C, C++, HTML, CSS, JavaScript

Data Analytics: SQL, Excel, Advanced Excel, Power BI, Tableau, EDA, Data Visualization, Statistical Analysis

Libraries & Tools: Pandas, NumPy, Matplotlib, Seaborn, Plotly, Streamlit, Scikit-learn, Prophet, GridSearchCV

AI Tools: ChatGPT, Copilot, Google Gemini API, AI-Powered Analytics Tools

Platforms: Git, GitHub, Google Colab, Jupyter Notebook, VS Code

EXPERIENCE

AI Data Analytics Intern

June 2026 – July 2026

InAmigos Foundation (NGO) – Remote

2 Weeks

- Structured a database of 18+ volunteer opportunities across India in Excel, streamlining access for 500+ students.
- Generated an AI-powered analysis report on 31,000+ NGOs across India, surfacing 5 actionable growth strategies.
- Completed 4 data projects within a 2-week deadline – NGO research database, volunteer tracker, AI insights report, and growth strategy document.
- Accelerated data collection using AI research tools, reducing manual research time by 60% across all 4 deliverables.

PROJECTS

DataPilot – AI Analytics Platform | *Python, Streamlit, Pandas, Plotly, Gemini API* | [GitHub](#)

- Built a full-stack AI-powered analytics platform using Streamlit enabling users to upload CSV/Excel datasets and instantly generate EDA, dashboards, and visualizations.
- Integrated Google Gemini API to deliver AI-driven business insights, SQL query generation, Pandas code suggestions, and data cleaning recommendations.
- Developed 7+ interactive chart types using Plotly including heatmaps, scatter plots, and bar charts with real-time filtering.
- Implemented automated report generator exporting professional PDF, CSV, and Excel reports, reducing manual reporting time by 70%.

Air Quality Index (AQI) Analysis | *Python, Pandas, Seaborn, Prophet* | [GitHub](#)

- Extracted insights from 29,531 records across 26 Indian cities (2015–2020), uncovering 5 key pollution patterns and seasonal trends.
- Measured COVID-19 lockdown impact – AQI dropped 27 points in 2020, confirming human activity as primary pollution driver.
- Constructed correlation heatmap revealing PM2.5 and PM10 as top AQI predictors with coefficients above 0.78 across 8 pollutants.
- Launched Facebook Prophet model achieving 85%+ trend accuracy to forecast Delhi AQI for next 12 months.

Customer Churn Prediction | *Python, Scikit-learn, Pandas, Matplotlib* | [GitHub](#)

- Implemented Logistic Regression and Random Forest models on 7,000+ telecom records to predict churn with 84% accuracy.
- Conducted EDA across 20+ features – surfaced contract type and tenure as top 2 churn drivers using heatmaps.
- Tuned model via GridSearchCV across 50+ hyperparameter combinations, improving baseline accuracy by 12%.
- Segmented 2,100+ at-risk customers on month-to-month contracts – 3x more likely to churn – enabling targeted retention.

CERTIFICATIONS

Ultimate Job-Ready AI-Powered Data Analytics Course

2026

CodeWithHarry | *Excel, Python, SQL, Advanced Python, Power BI, Tableau, AI Tools, Statistics*

- Certificate ID: CWH-THE-ULTIMATE-JOB-READY-AI-POWERED-DATA-ANALYTICS-COURSE-DEN8UN98

Basics of Data Analytics

May 2026

PhysicsWallah × Microsoft | *Certificate of Completion*

MATLAB Onramp

January 2026

MathWorks Training Services | *Course Completion Certificate*
